

**My name is Logan Wright and I am 10 years old. I attend the Courtyard part time and I spend most of the week at my mainstream school.**

**Before I started at the Courtyard, I found it difficult to make good choices and got in some trouble. I wasn't always able to follow adult instructions and I wasn't making as much progress as I could. I started to attend the Courtyard to help me with my behaviour for learning and this included learning to show good self control.**

**I have made exceptional progress across the curriculum and in behaviour for learning and I feel much better about myself. I have made awesome progress in English because now I can complete my learning to a very high standard.**

**I am now more able to show motivation and I always start tasks straight away and show resilience whenever I am learning. My relationships with others have also improved and I have learned how to make friends and keep them.**

**In addition, something else that has improved is that I am able to listen attentively to adults and peers and this has helped me to make positive relationships.**

**I have made such excellent progress that I am now attending my mainstream school for 3 days a week. My teacher came to observe me at my mainstream this week and said that she felt overwhelmed by my progress and impressed with everything that I was doing. This made me feel overjoyed and I felt like all my hard work was paying off.**

**I am hoping to start attending my mainstream full time by February half term and I am going to work really hard towards this.**

**In the future, I hope to put everything I have learned to good use and become an excellent role model to others.**

**Thanks for listening!**
