

Hello, I am Mason Buckley.

I am amazing at my maths learning. I always start my learning straight away and show motivation and a positive attitude to learning. Before I came here I didn't really do any learning and now I do loads.

The teachers are nice and they are proud of me because I am good at learning and because I am funny!

The thing that I have made most progress with is phonics. Before, I used to hate literacy and it was too hard. But after having my phonics lessons with Miss Luwam I am more confident with my sounds and now I can write sentences and I can read.

My behaviour for learning is amazing because now I can work independently and I have been showing good self-control. I am a good friend to other children because I am helpful and always kind to them.

My favourite part of school is maths and sometimes I help other children with their learning.

When I am older, I want to be a builder or a mechanic so I want to do my best at school to get a good job.
