

My B4L has improved so much since I came to the Courtyard. Everyone is kind which makes me feel at home!

The lessons are fun are nothing is boring. We have BMXing, circus skills, swimming and votes for school, this helps us to take risks in our learning.

We have a calm environment which helps us to concentrate. Feedback from teachers helps us all and they say things like, 'Well done for showing motivation and resilience today'. I also like getting stickers in my book because it shows me that I have done well.

When teachers write in my book, they tell me that I have done well and they set me a challenge which helps me to get even better at my learning.

My best piece of learning was my haunted house story in year 4 because of my handwriting and my wow words. I have made the most progress in literacy because before I came to the Courtyard, I didn't really do any and now I can do it no problem!

In the future, I hope to have even better
