Learners follow the online learning programme of their mainstream school, and MICs are open and here to support. We have a PSHE channel with a range of video links to a variety of topics relevant to the secondary curriculum, mental health and well-being. Additionally, we are assisting schools with wellbeing checks, parental support and working closely with multi-agencies to offer our expertise on the social, emotional and mental health of students.

The Secondary Outreach Service is also available to offer online mentoring to students who are vulnerable or have parents who are key workers (H&F only). Please contact Natalie Wright [nwright@tbap.org.uk](mailto:nwright@tbap.org.uk)
